OUR ITINERARIES

Below are some of our favorite tours. Most itineraries start directly from the hotel. Typically, two itineraries are proposed for each day. During the evening briefing each rider will choose his or her group's itinerary depending on his or her objectives. Mountain itineraries are chosen on a daily basis with respect of the prevailing weather conditions.

Bougnon Loop

Lovely itinerary looping around the hotel for 23 km and 220 m of vertical climb. A chance to check out your power capabilities and measure yourself with different setups, completely supported. 1- 4 loops, 23 to 92 km ride.

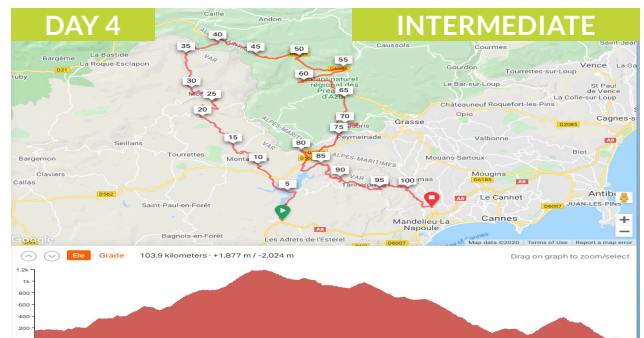

Testanier Mandelieu Stage, via the Riviera

Perfect mix of wild backcountry mountain riding in the Esterel with a long tour of the coastal road along the Mediterranean. 93 km of riding with 1117 m of vertical climbing with a coffee stop in La Napoule facing the sea. Return via Agay, Saint-Raphael and Frejus, Roman city.

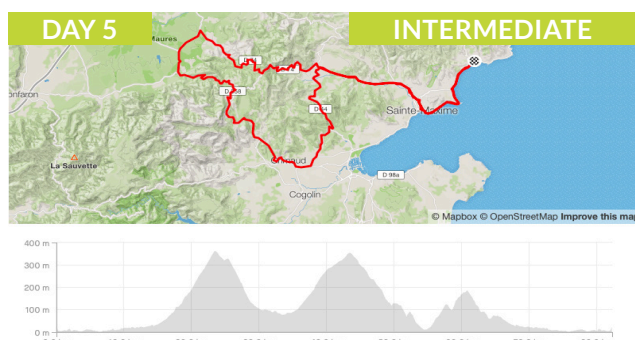

3 Mountain Passes: Canadel via Saint-Tropez

128 km. 760 m of vertical climb. Bike along the beautiful bay of Saint-Tropez, transit the village of Saint-Tropez and head into the wild coastal mountains with lovely vilages and sweeping seascapes.

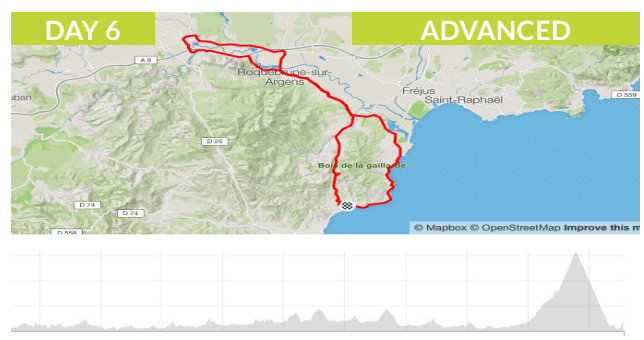

Parc Naturel Regional des Prealps

109 km. This beautiful ride through the backcountry of the Prealps starts and ends in a natural setting, arriving by car.

Vignon, La Garde-Freinet, Reverdi

82 km loop with 1075 m of vertical climb. Leave the hotel via the coastal road. At Saint-Maxim take a turn northward into the backcountry for a glorious ride on winding mountain roads. Ride past the perched village of Grimaud to the Perier pass, with a beautiful view of the fortress of Verne and its vineyards and past Notre-Dame-des-Anges.

Roquebrune-sur-Argens

105 km/ 1000 m of climbing. This backcountry itinerary starts with the Col de Bougnon pass and can be extended to a much longer ride depending on the group level. You can admire the red cliffs of Roquebrune via idyllic, twisting backcountry roads. Don't forget to have your camera ready for pictures of France's "mini Colorado".
